Because the owner and all working crew are skaters themselves, our service is high quality with professional flair. For 2 years now we have gathered lots of clients' opinions and basing on them we try to met all the expectations of more and more demanding customers. We are not only salesmen but also animators of rollerblade culture among different active lifestyles.

One of our main aims is to promote unknown, young and talented skaters from east Europe. Together with the rest of Hedonskate team wearing green, they will give their best showing the green potential of east rollerblading scene.
